Brokencyde
"Take Me Away"

Everything you gave to me
Take away this pain that you gave to me
I assume these scars remain with me
Until she pulled me back and made me bleed
Transforming light to dark
I'm a rip this motherfucking life apart
Slice my heart and stab my eyes
Shoot me in the face tonight

So take me away
I can't take my eyes off of you
So take me away
I can't take my eyes off of you
And everyday I'm like this
You always leave me like this
But I don't wanna die yet
So take me away

So just kill me girl
You take my life away
My heart is bleeding,believing
You turn my night to day
So take this pain away
And shoot me
Cause I felt so much better when I was losing

So just kill me girl
You take my life from me
My heart is bleeding'believing
You turn my night to day
So take this pain away
And shoot me
Cause I felt so much better when I was losing

Another day has passed me by
As I am holding you(holding you)
I feel the pressure release from your soul
Before you do?
Cause I can't take this more feelings
I will not let go of you
And don't lie
Cause you killed me

Inside you know it's true
And I don't wanna die
Don't die
And I don't wanna die
Don't die
And everyday I'm like this
You always leave me like this
But I don't wanna die yet
So take me away

So just kill me girl
My heart is bleeding'believing
You turn my night to day
So take this pain away
And shoot me
Cause I felt so much better when I was losing

So take me away
So just kill me girl
My heart is bleeding'believing
You turn my night to day
So take this pain away
And shoot me
Cause I felt so much better when I was losing

I felt so much better
I felt so much better
Kill me inside
Kill me tonight
Kill me inside
Kill me tonight
Kill me inside
Kill me tonight
And everyday I'm like this
You always leave me like this
But I don't wanna die yet
So take me away

So kill me girl
You take my life away
My heart is bleeding,believing
You turn my night to day
So take this pain away
And just shoot me
Cause I felt so much better when I was losing

So kill me girl
You take my life away
My heart is bleeding'believing
You turn my night to day
So take this pain away

And just shoot me
Cause I felt so much better when I was losing
