I love it how she breathes booze in the mornin'
Man, it's so sexy how she can't remember last night
I made a fatal mistake of letting her drink again
But who the hell am I to tell her how to live her life?

And if you could put dumb in a shotglass
I'm just another lush who's had one too many in me
Plenty's not enough enough
I see you stand there, settle for anything, anything's
better than lettin' her,
Think she could do better than me
She'll come around eventually

'Cause baby girl's a queen
But the queen's just a pawn with a bunch of fancy
moves
And she's made me a fiend
I'm going through withdrawals but I got nothin' to lose

Oh no,
She's at the bottom of that bottle (Hey)
She's only one more swallow (Hey)
From being oh so hollow (Hey)
(Hey! Hey! Hey!)
Bravo (Hey), she's at the bottom of that bottle (Hey)
She's only one more swallow (Hey)
From being oh so hollow (Hey)
(Hey! Hey! Hey!)

I find it funny she can never find her car keys
Immediately after telling me she can't take it
She makes the cutest faces when she screams
obscenities
And slurs her words because she's never not
inebriated
And the front page headline read
Let the girl go, you know you can do better
It's bad, when the fact that you can't have her
Is the reason you sweat her,
Don't let her take advantage of you
Like the other dudes let her
You better cut your losses now buddy.

'Cause baby girl's a queen
But the queen's just a pawn with a bunch of fancy
moves
And she's made me a fiend
I'm going through withdrawals but I got nothin' to lose

Oh no,
She's at the bottom of that bottle (Hey)
She's only one more swallow (Hey)
From being oh so hollow (Hey)
(Hey! Hey! Hey!)
Bravo (Hey), she's at the bottom of that bottle (Hey)
She's only one more swallow (Hey)
From being oh so hollow (Hey)
(Hey! Hey! Hey!)

Drown yourself,
It's not worth keeping me
Just put it down right now,
And bow out gracefully
'Cause baby girl's a queen
The queen's just a pawn with a bunch of fancy moves
And she's made me a fiend
I going through withdrawals but I got nothing to lose)

Oh no,
She's at the bottom of that bottle (Hey)
She's only one more swallow (Hey)
From being oh so hollow (Hey)
(Hey! Hey! Hey!)
Bravo (Hey), she's at the bottom of that bottle (Hey)
She's only one more swallow (Hey)
From being oh so hollow (Hey)
(Hey! Hey! Hey!)
