In the early 80's when I washed up on the shore
I could breathe a little more then I would realise
You can call me crazy, you can call me what you will
You could take the bitter pill, if it helps you sleep at
night

CHORUS

It's a long long way my crooked friend
Such a long long way back
home.....home.....hooooome
So close, yet we've come so far
So close, still we've got so far

I can safely say we feel as safe as we like
Lest we forget those who die, I never will
Such a perfect Island, tucked away in the sea
The real land of the free, do you hear me

It's a long way home my crooked friend
But i do appreciate the time we spent
It's a long long way back home
Such a long long way back
home.....home.....hooooome

So close, yet we've come so far
So close, still we've got so far
Repeat 3 times

A long way home woooo ooooh
