I swear I've drunk enough for both of us tonight  
But I'll buy another round before it's closing time  
Coz I know oh oh, baby, I'm getting better  
And you know oh oh, that maybe I'm feeling better

And if I leave this shitty pub without a trace  
My brand of cigarettes will lead you to my place  
So who knows oh ohs, maybe I'm feeling better  
And you know oh oh, baby, I'm getting better

And I feel alive with you  
Baby, I'm getting better  
And I feel alive with you  
Baby, I'm getting better  
Do do do do do do do do do do

I think I've seen enough to keep my big mouth shut  
Before you can call me a man  
How many songs does it take to understand?

And I feel alive with you  
Baby, I'm getting better  
And I feel alright with you  
Baby, I'm getting there  
Do do do do do do do do do do

It's nothing to do with the weather  
Now baby I'm getting better  
Don't look so down...  
So maybe I'm feeling better

Now I dream that I'm with you  
Baby, I'm getting better  
And I feel alive with you  
Baby, I'm getting better  
Do do do do do do do do do do  
Baby, I'm getting better  
Baby, I'm getting there
