Eyelids are heavy - man, I need some sleep.
Your hemline is sexy - I'll retreat.
So don't wake me. Please don't wake me.

Are we in real time? Are we even real?
For your information I'd borrow and steal
If you'd save me. Please save me.

Through everything I lost, and all the shit it cost
I'd trade this all just to sit with you.
Trade it all just to be with you.

For close to an hour I've been asleep standing still.
They haven't noticed but she probably will.
So don't wake me. Please don't wake me.

Through everything I lost, and all the shit it cost
I'd trade this all just to sit with you.
Trade it all just to be with you.
I'd trade this all for you.

So don't wake me.
So don't wake...

Imagine you've read this or you probably will.
For more information I'd beg, borrow or steal
If you'd save me. Please save me.

Through everything I lost and all the shit it cost,
It still kills me when you cry.
The way I feel haunts me, Jess I try.
You know I will trade this all just to sit with you.
Trade it all just to be with you.
I'd trade this all for you.
