Just another victim of the, victim of the ghetto  
Just another victim, that's how it goes

Heavy foot traffic jam the hallway all day  
Adolescence, workin' for small pay  
World so little, he could never leave his block  
His home full of riddle, so he always need his glock

Coast with his eye open, keep his metal smokin'  
Young wasted minds, fiendin' on dimes, cokin'  
Forgot kids, quick to break rules an' known to make  
fools  
Out of many, down the streets be more safe than  
school

There's no diploma that can break him from the coma  
A bloody war in the country, the youth hungry  
On the corner, hyenas amongst me  
Yabbin' 'bout the stories, they be hearin', always  
swearin'

Can't even spell the shit that he be wearin'  
Caught up in the silk web of material  
Superficial stains ya brain tissue, that's the issue  
The young is lost at their own cost, dreamin'  
Screamin' how they never hold positions, that's  
demeanin'

Mothers of murder victims share the same grief  
The elderly shake their head in disbelief  
An' no relief came 'til I aimed  
An' blast one shot an' left my name, the GZA

Just another victim of the, victim of the ghetto  
Just another victim, that's how it goes

My residence is a city where army veterans smoke  
rocks  
On torn down blocks drug spots set out their shops  
An' cops watch innocent niggaz roamin' in flocks  
Romanism in tops, papers an' knots

Churches an' liquor stores on every corner  
Plot to get money not, some funny niggaz act  
Like they could pop glocks an' those who can't cop  
Sisters givin' up ass a lot, brothers givin' up cash a lot  
They be strugglin' to become someone because their  
parents not

Just another victim of the ghetto, where lost minds  
settle  
When the Devil uncivils society an' die free  
With double 'W' followed by J-D around the necks an'  
wrists  
The God is now a dog, the earth is called a bitch

An' all my people wish to get rich in this wilderness  
To push a Lexus, ice on everythin'  
From rings an' bracelets to the necklaces  
Children molested within these pest infested buildings  
Thieves, uneducated in these schools paint on the  
ceilings

Is peelin' off but all I see is lost black babies callin'  
"Please somebody save me, please somebody save  
me"

Just another victim of the, victim of the ghetto  
Just another victim, that's how it goes  
Just another victim of the, victim of the ghetto  
Just another victim, that's how it goes

Just another, just another victim of the ghetto
