Give it up smooth
Stick then I move
Tryin' to make sense outta of nonsense
Fool
Trippin' on life and my situation
Brothers of earth
One love-one & 1 nation
I hear the voices callin' me
The choices I made were mine
And I don't mind
I rise to the top like cream
Like the Phoenix from the blunt ash
Realizin' my dreams
Kissin' the pacific sky
The purple haze brain remain open
To changin' tides
I desire knowledge by nature
Word to Aristotle
My nature's not to hate ya
So I try to put myself in the Chucks of the other man
Peace to my brother
Search out my pace in this
World I discover man
Damn, check out the colors man
My eyes are man
My eyes are opening wide
My eyes are open
I see it everyday
But some things never change-no
Some people livin' in fear
Not knowin' about the ten dimensions
The (hed) nigga reach the point of awakening
I annihilate nigga who be thinkin' that they can break
me
The next brother can do what they want to
This brother's sites are wide and true

If a stupid punk sweat me
The trick ass bitch'll wish
He never met me
So be warned my scorn is what you saw there
Be down or be gone

Let's get it on there
Turn of the century
Age of the microwave
One foot on the moon
But, you can see it gettin' better
Believe it
Young people sayin' "they ain't havin' it"
So? they takin'
They breakin's
They tired of the status quo
Fittin' to rape yo'
Their eyes are open
The windows are wide and far
So what the f...
Where you goin'
Where you been
Where you at
If I drop the bomb
Pick it up...
That sexy little girl
She had no father figure
The Catholic skirt
Put a hurtin' on the father's *?*\$*#
Table dances-they don't cum cheap
Dee-eye-see-kaye
Spells "relief"
Bring all your daughter to me
I was a just kid
I was just living
It never occurred to me that
Skin could determine identity
I was naive you see
Don't givaf...
Never did never will
My eyes are open wide
Pack skillz then move in for the kill
