Visit "[Fallen](#)" on MotoLyrics.com

It's my life
And I have always done exactly what I wanted
What else can a dog do?

It's not right
To take advantage of somebody who trusts you
Pendejo, yeah, I'm talking to you

It's not on every day
You meet somebody who believes in you
Stands by you
Without making demands on you

Just let me live
I just want to believe
Just let me do my thang
Come and get me

You cannot break me down
(Say it again)
You cannot break me down
(Please believe me)

Time is running out
(Say it again)
Your time is running out
(Please believe)

Ask not for whom the bell tolls
All your walls are closing in
(Please believe)
This house of flesh and blood has fallen

It's my life
And I'm a wild out
Until I bow out
Yes, I'm in this game
Until I foul out

It's not right
You always worried about what everybody's thinking
You worried they might figure you out

It's not every day
You go to work, go to sleep
Get paid in between
Get lifted, get laid

Just let me live
I just want to believe
Just let me do my thang
Come and get me

You cannot break me down
(Say it again)
You cannot break me down
(Please believe me)

Time is running out
(Say it again)
Your time is running out
(Please believe)

Ask not for whom the bell tolls
All your walls are closing in
(Please believe)
This house of flesh and blood has fallen
(Fallen)

Push it all, push it all away
(Say it again)
Push it all, push it all away
(Say it again)

Push it all, push it all away
(Say it again)
Push it all, push it all away
(Say it again)

Push it all, push it all away
(Say it again)
Push it all, push it all away
(Say it again)

Push it all, push it all away
(Say it again)
Push it all

Push it
(Push it away)
Push it
(Push it away)

Who the fuck are you?
Push it
(Push it away)
Push it

You cannot break me down
(Say it again)
You cannot break me down
(Please believe me)

Time is running out
(Say it again)
Your time is running out
(Please believe)

Ask not for whom the bell tolls
All your walls are closing in
(Please believe)
This house of flesh and blood has fallen
(Fallen)

It's my life
It's my life
It's my life
