Stop talking
I stopped listening to you
Stop lying
I stopped believing in you
I'm not dreaming
I'm grounded by you
I'm not worried
I just want to forget

I will take you there
Take you down with me
I'll give you just what you deserve
(Nothing, Pain, Sorrow)

Chorus:
Liberation, where are you?
Liberation, she'll soon come
I want revenge, where is she?
I want your blood, I'm thirsty!

You're dying
And you don't even know it
You're losing

Why should I even try
It's not funny
Well don't delude make me sing
I'm not laughing
My hatred eats me up inside

I will take you there
Take you down with me
I'll give you just what you deserve
(Nothing, Pain, Sorrow)
