Walk on by
Dont waste your time

The door is open
It's sublime
"The waters fine"
Don't drown in the lies
That the matrix constructs
To cover up the light
A day in the life
of a corporate avenger
Who god sent to offend ya
All day and all fucking night
Born to ride, Down for life
I'll be down for whatever
Better treat me right

Just walk on by
Dont waste your time
You'll never know me
And this life of mine
Just walk on by
Dont waste your time
You'll never control me
And this life of mine

The gods have spoken
In written word
The books are open
But few have heard
What the mystery teachings
Are waiting to ignite
Another day in the life of
the peoples defender
Whom god sent to avenge ya
All day and all fucking night
Born to ride, Down for life
I'll be down for whatever
Better treat me right

Just walk on by
Dont waste your time

You'll never know me
And this life of mine
Just walk on by
Dont waste your time
You'll never control me
And this life of mine

What a shame
We're reading all the wrong books in vain
It's a sin, such a crime
We dance to all the wrong songs in time
WE'LL HAVE TO DECIDE

You will never take control of me
I wont let you take control

Get up, get up

Mind your own fucking business

Check it out man
You do what you do
I'm gonna do what im gonna do
I'm really not looking for any trouble man
So just leave me alone, alright?
FUCK OFF

Just walk on by
Dont waste your time
You'll never know me
And this life of mine
Just walk on by
Dont waste your time
You'll never control me
And this life of mine

FUCK YOU
You cant control me

You will never take control of me
I wont let you take control
