Nobody ever told me love could hurt this way  
And I'd be feeling how I feel tonight  
I've tried to hide it but my eyes reflect the pain  
No happy endings here for you and I

'coz now you're saying its over and done  
There's nothing I can do

Chorus  
When it comes down to letting go  
Won't you let me know  
How to heal my heart  
When it's hurting so  
It's not easy to walk away  
No matter what you say  
Tell me what I should do  
How to get over you (over you)

Sometimes I wish that I could see  
What's in your heart  
When did you decide to turn the page  
You kept your distance

Did you keep it in the dark  
Tell me how long have you felt this way

I hear you saying its over and done  
There's nothing I can do (oh no)

Chorus (2x)

Look into my eyes  
Tell me no more lies  
When love breaks down that's the least you can do  
Then I put aside my wounded pride  
Somehow I'll get over you

Chorus (3x)
