Twenty four seven and a three sixty five
I am in full effect and I ain't taking no jive
I got the masterplan cause I'm desaster man
And I live by the 'gets' not by the 'gives' cause I can't

Damn, you can't give you always take, take, take
Take and break and that is wrong wait
Wrong for God's sake, too much, wake up
You got it going on
Too long for you, for me to take and just stake...

Kindness, friendship, all the people offer?
All the understandings you would say but I want more

More, more, more but what is more on your score?
If you get a whole lot but everything is a bore
Cause what you get is not at all
All you thought it'd be
Dissapointed my man, hell - well 1-2-3
Now quit it kid and try the 'gives' not the 'gets'

But I want this I want that, gimme more I'm upset

I just can't take you no more

Chorus:
Gimme more, gimme more, - ah gimme more -
What are you waiting for, just gimme, gimme more

So you want this and that hey what's your best bet

Well I don't know for sure, but I sure need it fast
Guess I just need a grip on your private notions

Hell, that is none of your biz and that's a shitty motion
What you don't care don't need no understanding
Just demanding, just demanding

Your life and love's don't give me if's and but
Cause if I give I lose, I can't afford no cuts

But I'm not yours, no, not at all
You can't just take me out
I ain't no shopping mall
I gotta -

Get in return a bit from me to learn?
What? What I'm all about, no that is my turn
Earn and get as much as I can

But what's it good for if then you don't get a friend?
Guess you're too fucked up in the head
So you just ignore
That you got none and want more
But all you know is gimme more

I just can't take you no more...

Chorus
