I hope our love lasts, passed our lifetime
Although some times, I know we went astray
They say all ways will seperate some day
So let them say, but hell that's not our way

And all I know, and all I know, I know my love's so deep
And all I know, and all I know, you showed a love that's
so deep

I feel our hearts bleed into one, bleed into one

Damn well I know, there won't be a pair to find
Never two of a kind, with just one single mind
But who's to blame, and for whoever cares
Our lives too short, our love's forever, yeah

Cause all I know, yes, all I know, I know my love roots so
deep
Cause all I know, yes, all I know, you showed me love
that's so deep

I feel our hearts bleed into one, feel our hearts bleed
into,
I feel our hearts bleed into one, bleed into one

All I wanna feel
All I wanna feel, all I wanna feel, all I wanna feel, all I
wanna feel...

Cause all I know, yes, all I know, I know my love roots so
deep
Cause all I know, yes, all I know, you showed me love
that's so deep

I feel our hearts bleed into one, feel our hearts bleed
into,
I feel our hearts bleed into one, bleed into one
