"Paradise Valley"

Visit "[Paradise Valley](#)" on MotoLyrics.com

Can't think straight my mind is covered with clouds
No doubt what I'm talking about;
I've never seen a place like this I miss no bliss
How could I ever forget how it feels, how it heals,
My wound, my blood, whatever pain my soul has got
These waters so clear
Near and far all I can hear
Rustle of leaves and insects hummin on trees

No place like this - no place like this
Paradise valley

The sun reflects some billion glitters of water
Direct in my face but I can't take my eyes of this place
So peaceful, beautiful, it flows all into one
Meadows, mountains, I, the sky
So close I can never feel to gods own miracle
And then I see, I see that eagle fly

No place like this - no place like this
Paradise valley
