Revolt!

You make me lose my mind, make me forget what's
right,
You make me lose everything I always had to fight for,
Make me lose control, you make lose my soul,
You make me lose everything I always stood up for

Its time to take a stand, Ive go to find a solution,
Its time for me to plant, the plant of a revolution

Chorus:
Revolution
Its time for a revolution

I wont be satisfied till violence has died
Now don't you know that you're the reason why the
people cry
About the dreames you kill bout all the graves you fill
Bout all precious blood you always had to spill

Its time to take a stand...

Chorus

Revolt!

Man Ive got to come down, down to reality,
Conspiracy rules the world and we
Cant close our eyes about the fact
That disrespect lets the world be divide
D in first, second, and third,
Though that will always be so and all I know,
Is that I have to show you that aint right,
And it's our plight to fight for the rights of the weak
And that's why we need this re-vo-lu-tion

Chorus
