"Come Bad"

I took the long way for a comeback, whack pussies and scumbags,
Iâve had enough of peeps telling me Iâve done that,
when
even done yet so I get set for the combat and when I
come bad - now where you at
my god damned homies from the southside, Iâll shut
my mouth I -
I let the stage do the talking and Iâm ah gonna wave
you bye bye,
Bye Bye baby bye bye, bye, bye baby, bye, bye. And so
I buy you out, thatâs what
youâre all about and I keep telling you about how you
are selling me out. You are
repelling out of the possibilities, that I see, 99 % are
raising hell in me - can you
follow me? It seems to me like a tragedy now really
Gee, intentionally I wanna grab
your bank account and kill you with the money. I race
the tracks to face the facts the
trace of that: Itâs combat. And youâre the casualties.
Just for the war stats.

Refrain:

this is combat, just get off my back cause I canât take
that sucker, combat now Iâm
back on the mike and Iâm a gonna fight back and
when I come bad! - fight back and
Iâm a gonna strike back combat just get off my back
you whack pack suckers

Sorry but this is our territory - now donât you worry,
GET UP GET OUT - just gotta
hurry. Slave to greed grave to thee, find a better place
to be instead I see the theft
of me you took all that was left of me. Emergency the
urgency of this attack has
priority to everything, that I am at so that I gotta be who
I gotta be: THE ONE WHO
STRIKES BACK BEFORE YOU GET THAT I wanna bet that
Iâm a sleeper, the keeper

of the key and I go deeper, deeper than you've ever
been. I get a call and you'll be
sleepless, you think that's all no not at all that thought
is needless. The catastrophe,
you took the best of me you don't wanna mess with
me, cause I got the master P.
the recipe what's that test me! And play chess with
me, you gotta be faster, hein, or
else it has to be that I'm all that cause

Refrain:

this is combat, just get off my back cause I can't take
that sucker, combat now I'm
back on the mike and I'm a gonna fight back and
when I come bad! - fight back and
I'm a gonna strike back combat just get off my back
you whack pack sucke
