"Kiss Me"

We're talking for hours, all through the night
We said everything about us and I know it's alright
You'll be gone for quite some time

I love your brown eyes I love your smile
I love everything about you and I love your style
I think you can go now for quite a while

Refrain:

Kiss me kiss me kiss me
Take the train but miss me K.
Before I'm too far away
Miss me miss me miss me
Take the plane but kiss me K.
Kiss me K.

Now we're separated one million miles
Love at first sight updated all the time
No matter where you go I got kisses on my mind

I love your brown eyes I love your smile
I love everything about you and I love your style
I'm waiting here for a kiss one more time

Refrain:

Kiss me kiss me kiss me
Take the train and miss me K.
Before I'm too far away
Miss me miss me miss me
Take the plane but kiss me K.
Kiss me K!
