Fire shine through my liquid sunlight  
Thoughts of those I love hurt my head  
And with another gulp I'll wash them  
Down to stop them spinning me around

I smell the scent of your bitterness, so sweet  
Caress your body, caressing my need  
The colors of gold that you show me  
Bleed into seas I never see when you leave me in

Liquid sunlight  
Liquid sunlight

Timeless I walk on a tight rope  
Timeless I'd fall, timeless I hope  
Senseless my wonders and liquid is my dope  
My sense's no wonder, sunlights my hope

So shine on with me, you crazy diamond  
You cover what's real 'cause you are my friend  
We'll stagger outside, are we on a, are we on a flight?  
My liquid sunlight shining it inside

Liquid sunlight  
Liquid sunlight  
Liquid sunlight

Don't ask me why I'm flying so high, man  
Don't ask me why I'm living a lie  
Ask me where and why am I laying  
Under the sun as the night is aside

Liquid sunlight  
Liquid sunlight  
Liquid sunlight  
Liquid sunlight
