"Nothing Left At All"

Visit "[Nothing Left At All](#)" on MotoLyrics.com

I wonder where's our credit gone
I wonder why the fuck have I been waiting too long I
I've been wondering till our hope was gone
And when it came it back it turned me on
That you would take me by the hand
Please help me
And now I hope that you understand
Because I cannot stop to wonder if you understand

I wonder I can't help it
I took ourselves for granted

Refrain:

If there is nothing left to do
And nothing left to say
Tell me what a waste it'd be
To stay for one more day
Nothing left to feel
Nothing left to hope for
We'd stumble and we'd crawl cause we've got
Nothing left at all

I gotta save what is left of me
Getting me out of this misery
I pull the trigger in my inner self
And turn myself I put my worries on a slimmer shelf
Is there anything inside of me then
Please help me
And this is why I hope you understand
Because I cannot stop to wonder if you understand

I wonder I can't help it
I took ourselves for granted

Refrain:

If there is nothing left to do
And nothing left to say
Tell me what a waste it'd be
To stay for one more day
Nothing left to feel
Nothing left to hope for

Weâd stumble and weâd crawl cause weâve got
Nothing left at allâ

Please help me

We've got nothing left to do
Nothing left to say
Tell me what a waste it'd be
To stay for one more day
Nothing left to feel
Nothing left to hope for
Weâd stumble and weâd crawl cause weâve got
Nothing left at all
