It's alright, I close my eyes and look at you
What I see is your smile shining bright at me

Can you feel it? Yeah
Can you feel it? Yeah

When I'm down I shut my mouth and talk to you
And you smile and close your eyes and look at me

Can you feel it? Yeah
Can you feel it? Yeah

Duality of mind, duality of mind
It's alright, I shut my mind and die tonight
And you'll see that I killed duality in mind

Can you feel it? Yeah
Can you feel it? Yeah

Duality of mind, duality of mind
