I know that, you don't like me but, believe me, that I don't fucking care. No I don't fucking care, hell I don't fucking care. Now you don't even know me, ohoh, the battle that you fight can not be won, there's nothing that you owe me ohoh, but if there is a loser you're the one.

Refrain:

I know you are the one, you wanna tease, and drag the whole world down - THE WHOLE WORLD DOWN! I know you are the one, so come on please don't ever let me down - LET ME DOWN!

I hope that, you don't quit coming round, without that, life's a song without sound. That song will always be there, hell you don't fucking care

Now you don't even know me, ohoh, the battle that you fight can not be won, there's nothing that you owe me ohoh, but if there is a loser you're the one.

Refrain:

I know you are the one, you wanna tease, and drag the whole world down - THE WHOLE WORLD DOWN! I know you are the one, so come on please don't ever let me down - LET ME DOWN!
