You been working all day, I know you wanna complain  
I'll be only there for you till you call my name  
I can work around you I wanna leave things strong  
I know I can't be your full time baby so let me be your  
part time lover

If you don't mind, I do you just fine  
I can be your part time lover  
If you don't mind, I do you just fine  
Part time lover

There is not another man who would take care of you  
Right now I know you're busy baby but let me be your  
part time through  
I can give you love baby girl anytime or anywhere  
Anytime time that you free baby call me and I'll be  
there  
If you don't mind

If you don't mind I do you just fine  
I can be your part time lover  
If you don't mind, I do you just fine  
Part time lover

I wanna be your part time lover  
I just wanna be your part time through  
I don't have much to do, let me do it for you  
And you will be fine, be fine

If you don't mind I do you just fine  
I can be your part time lover  
If you don't mind, I do you just fine  
Part time lover

If you don't mind I do you just fine  
I can be your part time lover  
If you don't mind, I do you just fine
