I see
You've turned your back on love again
And I feel
Your stumbling downwards once again
And i feel
Despair kissing our lips again
And i feel
Despair holding our hearts again, yeah
Oh you hear
Me crying behind your back again
And you hear
My heart beat slowin' down again
And i feel
Despair kissing our lips again
And i feel
Despair holding our hearts again
I feel
Despair kissing our lips again
And i feel
Despair holding our hearts again, yeah
Oh baby yes i feel
Despair kissing our lips again
And i feel
Despair holding our hearts again
And i feel
Despair kissing our lips again
And i feel
Despair holding our hearts again, yeah
Despair holding our hearts again, oh
That's right
Yeah
