Visit "[Earth To You](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Don't tell me  
You're just fine  
Somethin's up  
And I know it  
I'm not stupid  
Just in case  
You were too busy  
Too pay attention to life

Refrain:

Well, Earth to you and the things that you do  
Cause now you're clearly on Mars  
Just tell me what's up  
I need to know  
I do, I really do

You've turned into an alien freak,  
You don't even speak my language  
Homeless birds and stray cats  
Would make better companions than you

Chorus:
