Softly the light shines in through
Gates of grace on me and you
Deceiving our restless hearts
A flickering flame so serene
It fires the night so we could see
Feeling alone so strong

And I know where I belong
Away from your guards
That heal our wounds in life
This endless dark
Endless dark
This endless dark

Lovely the light shines on you
Through the gates of fire entombed
Feeling on your own
Weak is the blaze that kept me away
From cruelty and tenderness embraced
Saving my soul no more

And I know where I belong
Away from your guards
That heal our wounds in life
This endless dark
Endless dark
This endless dark

I know where I belong
Away from you guards
That heal our wounds in life,
This endless dark

The shadow on you that tamed your burning heart
That buried my truth right into your arms
The words of the tomb of I fall on lone
That heal our wounds and light , this endless dark
That heal our wounds and light , this endless dark
That heal our wounds and light , this endless dark
That heal our wounds and light , this endless dark
