Divided we stand in light of a frozen sun  
Cursing the gods we have become  
We steal the fire from a sacred heart  
And bleed the wine unholy  
We fall in love with the serpent's song  
And fear nothing  
In the nightside of eden  
We're born again  
Dead  
Forever we are  
Forever we've been  
Forever we'll be crucified to a dream  
The nightside of eden  
Deranged, we're tearing away the petals of desire  
Learning the mathematics of evil by heart  
We deceive ourselves to start a war  
Within the realm of senses  
And descend to the circle number four  
Where we are nothing  
In the nightside of eden  
We're born again  
Dead  
Forever we are  
Forever we've been  
Forever we'll be crucified to a dream  
The nightside of eden  
In the nightside of eden  
We're born again  
Dead  
Forever we are  
Forever we've been  
Forever we'll be crucified to a dream  
The nightside of eden  
Forever we are  
Forever we've been  
Forever we'll be crucified to a dream  
The nightside of eden  
Forever we are  
Forever we've been  
Forever we'll be crucified to a dream
