Whaddya think, you're the king?
Always on top of everything.
Sure, sure, sure
You think you're the best
So much better than the rest.
But you're not,
You don't see
How unreal you seem to me
It's just fake,
A disguise
But I see!

Chorus:

Hail, Your Highness, Your Majesty
You mean nut nut nothing to me
You'll have your queen, but when you do
I promise your love won't be true

When you have
Enslaved my land
We won't be walking
Hand in hand
Said goodbye
To your life
Your Majesty

Chorus:

I'd rather have love
Then be a queen
Rather be normal
Not have everything
Maybe that's weird,
But it's just me
Sooner or later
You will see!

Chorus:
