Divided we stand in light of a frozen sun
Cursing the gods we have become
We steal the fire from a sacred heart
And bleed the wine unholy
We fall in love with the serpent's song
And fear nothing
In the nightside of eden
We're born again
Dead
Forever we are
Forever we've been
Forever we'll be crucified to a dream
The nightside of eden
Deranged, we're tearing away the petals of desire
Learning the mathematics of evil by heart
We decieve ourselves to start a war
Within the realm of senses
And descend to the circle number four
Where we are nothing
In the nightside of eden
We're born again
Dead
Forever we are
Forever we've been
Forever we'll be crucified to a dream
The nightside of eden
In the nightside of eden
We're born again
Dead
Forever we are
Forever we've been
Forever we'll be crucified to a dream
The nightside of eden
Forever we are
Forever we've been
Forever we'll be crucified to a dream
The nightside of eden
Forever we are
Forever we've been
Forever we'll be crucified to a dream
