When I was born, shadow comin' into your life
The dark side of your sun coming to
Coming to

Everyday, sin is deeper in your heart and
Screaming souls, deeper and deeper
Come into me like a knife on my skin
But you can never die never die

Run away, take another falling love and
Make my way, fire burning my desire
Every tear you'll cry
Every day I'll die
With my blood you can survive
And we'll live forever into hell
Into hell
Into hell
Into hell
Into hell

With my blood now you are free
Like a scream, fly to me fly to me
Similar dreams, and we're flying like an angel
But we fall, always into hell
Into hell
Into

Run away, take another falling love and
Make my way, fire burning my desire
Every tear you'll cry
Every day I'll die
With my blood you can survive you can survive
And we'll live forever into hell
Into hell
Into hell
Into hell
Into hell
