H20 "Thicker Than Water"

Visit "Thicker Than Water" on MotoLyrics.com

My family looks out for me Like friends our story never ends We've run into the fire And somehow water comes to save us

There are so few we can depend on With blood there is an honor We act like we don't care But deep inside

It's more, more than you can see
Thicker than water
It means more, so much more to me
Thicker than water

We've all been struggling since I was three How happy can we be? We've turned some bad times into good Always knowing where we stood

[Incomprehensible] led us to the water We get by on H2O But remember what is stronger And let it flow

It's more, more than you can see Thicker than water And it means more, so much more to me Thicker than water

It runs so thick inside my veins
Through all the heartache and the pain
And everything I've come to be
It's more you can see

It runs so thick inside my veins Through all the heartache and the pain And everything I've come to be It's more you can see

Thicker than water Means more to me Thicker than water Means more to me

Thicker than water Means more to me Thicker than water Means more to me

Thicker than water Means more to me Thicker than water Means more to me
