So Fresh, So Green
Back then there was a scene
That's when the music meant the most to me!
First tour we want more, be careful what you wish for
If you were there then you know what I mean

This is the only life I want to live in 1995!
I'm not coming home there's no one there for me.
Time flies, it goes by and then you realize
I'm not coming home, this is where I want to be

First song, first show and then before you know
We're on our way to Tokyo
Our family tree, it was just you and me
With a whooaa it came to be.

This is the only life I want to live in 1995!
I'm not coming home there's nothing there for me.
Time flies, it goes by and then you realize
I'm not coming home, this is where I want to be
