Today is a new day, never as the other days
What else can I say, that's not been said
Each day I rise up, thinking I've wised up
I realize that I don't know a shit

I don't know where I'm gonna be each day by day with
me

I don't know where I'm gonna land
My five year plan has turned to ten
(And it's all gonna happen again)

Millenniums coming, I better start running
Straight for a place in history
So fast the past went, none of our time spent
Wondering what's gonna happen to me

I don't know where I'm gonna be each day by day with
me

I don't know where I'm gonna land
My five year plan has turned to ten
(And it's all gonna happen again)

Again and again, again through time I see
(Day by day)
I'm going through changes to find what's best for me
(Day by day)
I know where I am and I know where I'm from
So I got to face the future and take it as it comes

I don't know where I'm gonna be each day by day with
me

I don't know where I'm gonna land
My five year plan has turned to ten
(And it's all gonna happen again)

I don't know where I'm gonna be each day by day with
me

I don't know where I'm gonna land
My five year plan has turned to ten
(And it's all gonna happen again)
