Old school recess, old school recess
Old school recess, old school recess

Where did we go so wrong? How did we last so long?
All I can think now that we're here, is when we gonna
have
Some fun can't forget what we were, even if it's all a
blur
And never forget why we're still young and how we all
still endure

I don't wanna be 13, I only wanna share the scene
All I really want to do is to have Saturday
Everyday for the rest of our lives

Old school recess, old school recess
Old school recess, old school recess

When did it come to this, too much of this business?
I'm not under no fucking gun, so when we gonna have
some fun
Tell me how you got so sad, with all the good times we
had?

When all you really want is to have Saturday
When you're tired of living in the past, Saturday
When you only want good times to last, Saturday

Everyday for the rest of our lives, old school recess
Everyday for the rest of our lives, old school recess
Everyday for the rest of our lives, old school recess
Everyday for the rest of our lives, old school recess
