She was with him, now everybody knows
Cause she told a friend, and that's the way it goes
People have loose lips, sometimes behind your back
You know, that's how they get their kicks
When the conversation lacks, you know
Tell a tale of contradiction
Gossip causes crucifixion
They talk to much shut up! (4x)
They talk too much
And I don't like that they say
It's just a bunch of bullshit anyway
He took her out to see what he could get
He got nothing but he had to tell the guys he did
That's how rumors start
Just how they end I don't know
Go on spread the word
I don't listen anymore
Tell a tale of contradiction
Gossip causes crucifixion
They talk to much shut up! (4x)
They talk too much
And I don't like that they say
It's just a bunch of bullshit anyway
