Blurring the line between abortion and infanticide

D & X. the most impious form of terminating tots

Dilation and evacuation, such a problem for the doctors

By the second trimester infantile tissues are tough  
Making adequate dismemberment and removal  
difficult

But the dilation and extraction procedure eases the  
grisly task

Children gruesomely murdered before they leave the  
womb

This full term abortion is obvious baby butchery

Tell me mother, can you feel the child kick?

Your unwanted pregnancy soon to be hacked away

Umbilical cord cut, but a tiny navel never tied

Another dead papoose for the pro-choice side  
It's immortal and obvious butchery

Pulling the wee babes legs into the birth canal

Entire body delivered except for above the neck

Cervix won't dilate, the head cannot pass

Blunt surgical scissors stab the cranial base

A suction catheter is inserted into the hole

The premature brains are vacuumed out

As the tiny, soft infant skull collapses  
The disgusting evacuation is now complete

Tell me mother, can you feel the child kick?

Your unwanted pregnancy soon to be hacked tied  
Another dead papoose for the pro-choice side

It's immortal and obvious butchery

Infanticide legally done by detestable physicians

The Freedom of Choice Act soaked in baby's blood

Instead of adoption a massacre eventuates

Another generation of children they exterminate  
Abortionist guided by an ultrasound screen

Using forceps to tear the babe from the womb

Eight months with child, now the cuntbag chooses to  
kill

Her offspring's brains sucked, and bodily bisected  
between her thighs
