# "Hatred Is Immortal"

Buried under black soil  
Rotting and rusting away  
But never forgotten until this day

Twisting and turning  
To be freed from this capture  
Ready again to awake in Rapture!

Hatred is Immortal!  
It will never fade away  
Through a longforgotten portal  
It's back again today

The downwards spiral of decay  
Has actually made it stronger  
All rusted and rotten Warmonger!

Now marching through your minds  
Again in dismal glory it speaks:  
"Hatred is back for the Heart that bleeds!"
