I bleed for the nightwinds  
Summon to perish the flesh  
Disgrace over humanity  
Frightful pest so dead

Celebrate night  
Drink with pride the fall  
Ov this eternal  
Dark holocaust  
Fiendish this  
Seance to be  
Tormenting hellwaves  
Increase

I dream into nightwinds  
Bestial raids ov apocrypha, erase  
Enthrallment ov the somber  
Dismal zephyrous embrace

For night and beyond  
For ages ov darkness to come  
May eternal the moon to rise  
Nefarious abominant midnight

Sacrilege made storms  
Blissful obscure dread  
Festering in torment  
Rejoice into death  
Forth darkness, into darkness  
Winds ov cavernal grandeur  
Erupting the flesh ov the ancient ones
