How come I must know
Where obsession needs to go?
How come i must know
The direction of relieving?

Deep in the night
Far off the light
Missing my headache

Vissions of light
Sweeter delight
Kissin' my loveache

Deep in the night
Far off the light
Missing my headache

Visions of light
Sweeter delight
Kissin' my loveache

How come I must know
Where obsession needs to go?
How come I must know
Where the passion hides it's feelings?

How come I must know
Where obsession needs to go?
How come I must know
The direction of relieving?
