[Chorus - Chris Brown]

Baby, you don't have to try to read my mind
'Cause you know I wanna get it in
And tell me Why would we just think about?
If you wanna then I got it
We can be body to body
Body to body
I don't mean to rush you girl
But we should be body to body
Body to body, body to body

[Verse 1 - Ace Hood]

Uh, picture your body soakin', bath water
No panties on, come up out them leg warmers
Wrap up your hair, leave on your heels
Kissin' you while I whisper, shawty how it feel
Let ya mind wonder, oh you thinking dirty
I was thinkin' you can ride me, Miss Kentucky Derby
I dream about it, let's take advantage
My body on your body, hope that you can manage
Gotta moan it, damn it, feels good
Pulling on her hair to let her know I'm still hood
Damn right, serve her the real
This year of the Ace, bet you that she know the deal

[Chorus - Chris Brown]

Baby, you don't have to try to read my mind
'Cause you know I wanna get it in
And tell me Why would we just think about?
If you wanna then I got it
We can be body to body
Body to body
I don't mean to rush you girl
But we should be body to body
Body to body, body to body

[Verse 2 - Ace Hood]

Uh, so quit ya contemplatin', skip this conversation
By the way, you biting on your lip just gave me
confirmation
What's that Chanel 5?

Very sexy fragrance
Are those your real eyes
Cant tell you're partially Asian
But I know your body got me focused, I'm just so
sedated
And I guarantee I do you better than your past or latest
Body to body, where is the sunny
Bet if I hit your spot, I'll make you tsunami
Change up the sheets, no time to sleep
Asked her what she's thinking, she replied that I'm a
beast
Yeah she replied that I'm a beast
Got it locked between the sheets and even in the
streets

[Chorus - Chris Brown]
Baby, you don't have to try to read my mind
'Cause you know I wanna get it in
And tell me why would we just think about
If you wanna then I got it
We can be body to body
Body to body
I don't need to rush you girl
But we should be body to body
Body to body, body to body

[Chris Brown]
We'll make love on the floor, you kissing my tattoos
I'm pullin' your hair you scream my name
Call me daddy, baby, I got you
Go get in your bed and lay down, down, down
Girl, are you ready, 'cause I'm gonna want you face
down, down, down
Right now, you fuckin' with a real freak!

[Chorus - Chris Brown]
Baby, you don't have to try to read my mind
'Cause you know I wanna get it in
And tell me Why would we just think about?
If you wanna then I got it
We can be body to body
Body to body
I don't need to rush you girl
But we should be body to body
Body to body, body to body
