[Verse 2: Ace Hood]

Please Lord, please Lord watch over my kids!
Nightmares hunting the devil within
Pistol by my side, replenishing sins
Niggas try me, I'm rearranging his limbs
Cold heart got it from this cold world,
Put the pump to your daughter, poor girl!
City of gods, kil or be killed
I know some [?] that 'll do it admire the thrill
Welcome to hell praise to ya God,

Emergency cause murder may come in disguise!
I hit my knees and hope that my father reply
Man down bury him suit and a tie (movado voice:

Now why they made me go and do it?
Now why they made me go and do it?
I ain't no killer but he pushed me,
Look him in the eyes, who pussy!
Stare into your barrel nigga, please squeeze,

Exactly how they live in the dawn [?]
