See the streets got a feelin' what I'm speakin' is the truth
These otha niggas lyin' they defyin' in a booth
I just picture B.I.G. and resurrectin' him wit' juice
And hopin' Heaven got a ghetto fo' a nigga too
That's worded from the D.A.C. you need to see the truth
I was only seventeen servin' after school groups
A menace to society variety I'm proof
Some go fa that eleven, yeah, that's at fa twenty two
I missed a lot of sunny days they kept me in a room
That's why I copped that coupe
And chopped the mothafuckin' roof
So every day I ride and I can get the love the view
I watched my money stack while I minajed in a pool
The same damn Ace that they decided was a fool
'Member in high school me couldn't ball was the news?
I just switched to different views, put them haters on snooze
I just had to renegotiate and calculate the moves
I went from show and tellin' nigga to the show improved
And now it's three whips, wit' a mansion and a pool
Louis Vuitton don sippin' coconuts a cool
See the diamonds in my shades that's a rich nigga's soos
Give a fuck about a hater cause I'm back in round two
Now that is what it do, now tell me who is you
Only Benjamin alive so you better show yo' use
See We the Best the mob and the future's in the booth
Imprinted in my life and I can show you niggas proof
D.A.D. fulla goons beg them niggas not to shoot
'Cause while them pussies creepin'
They be peepin' on the roof
They hatin' what I'm makin' leave you vacant by the two
And snitches die slow them sucka niggas uninvited
And celebrate by lightas hit the kush to get us higher
The heartily unit us just bring me women like Titans
The best to eva speak it from a real nigga Bible

Ruthless
