"Another Day Without You"

There are moments in our lives
When everyting goes right
And we're making love
Endless love
And then we have all these days
Where we go separate ways
A heart full of pain
And no one's to blame
It's just another day
Without you
Without you
It's just another day
Without you
Without you
Many times we throw away
What we regret teh next day
And we say Good-Bye
Forever Good-Bye!!
And I don't know wht it is
Just a game of hit and miss?
I wonder how long
We can go on?
