I stay  
I decide  
I never wanted to see your face again  
But when you passed me by  
I was back on fire

Love  
Love has got a hold of me  
(Baby just can't you see)  
Love  
Love has got a hold of me (hold of me)  
Come back

Since I closed my eyes and  
Made a picture of you in my mind  
My love is eating me  
I want you by my side

Love  
Love has got a hold of me  
(Baby just can't you see)  
Love  
Love has got a hold of me (hold of me)  
Come back

(Oh, come back)  
(Oh, come back)  
Come back  
Come back

Love (love)  
Love has got a hold of me  
(Baby just can't you see)  
Love (love)  
Love has got a hold of me (hold of me)  
Love  
Love has, love has  
Love has, love has got a hold of me  
Come back...
