Mother mother mother... This is for you

I still remember the day you said to me
"My baby, you can do whatever you wanna do,
When you grow up when you 're up , baby"

And I still remember how you thought me so many thing
From time to girl and from girl to boys
And that's how I started to know myself

I still can remember how we lived together
How you cared for me, in times of misery
I'll always remember how you were my mentor
One day I hope to be
Just like the mother that you are for me

Some days you were crying so much,
You were so young
And you did everything all on your own,
You were alone, yeah

And I thank you now cause you thought me so many things
From girl to women and from women to you
And you're there,
Whenever I need your help

I still can remember how we lived together
How you cared for me, in times of misery
I'll always remember how you were my mentor
One day I hope to be,
Just like the mother that you are for me

I still can remember how we lived together
How you cared for me, in times of misery
I'll always remember how you were my mentor
One day I hope to be,

Just like the mother that you are for me
