Give me a moment to realize it
Lying besides you seems so unreal
Still can't believe it, I've tried to fight it
I was afraid to feel what I feel.

In this cold cold life
I need a torch, a guiding light
And you're that guy, you're the one.
Could you be mine, mine for all times?
Would you be mine, mine for all times?

I would live a double life
Just to be with you
It ain't good and it ain't right
But it's what I got to do.
I would live a double life
Secret and taboo
I don't want to live a lie
But I got to be with you. (2x)
