If you're ready to get intimate
Come and feel my love unlimited
If you wanna be my baby
Gotta really drive me crazy (crazy)

If you're ready to get intimate
You're gonna have to change a little bit
Gotta treat me like a lady
Do it right and don't get lazy

Oh boy, I told you many times I'm into you
And I know you want this too, I could make you feel so good
Oh boy, the time has come that you should understand
I can only bellydance under the perfect circumstance

If you're ready to get intimate
Come and feel my love unlimited
If you wanna be my baby
Gotta really drive me crazy (crazy)

If you're ready to get intimate
You're gonna have to change a little bit
Gotta treat me like a lady
Do it right and don't get lazy

I'll make you see all colours of the night
But before I'll make you fly, you gotta look into my eyes
'Cause boy, I wanna see you're really worth my time
I've got so much left to try, could you be that special guy?

If you're ready to get intimate
Come and feel my love unlimited
If you wanna be my baby
Gotta really drive me crazy (crazy)

If you're ready to get intimate

You're gonna have to change a little bit
Gotta treat me like a lady
Do it right and don't get lazy

Now it's you and me
I can't speak, you got me weak
The thing we had couldn't last
Losing track and you're going way too fast

I don't think we should get intimate
I don't think we should get intimate
I don't really feel I'm into it
At first you got me weak and now I finally see

I don't think we should get intimate
You won't get my love unlimited (ooh yeah)
Oh, you could have been my baby (you could have been)
But you couldn't drive me crazy (you couldn't drive me crazy)

I don't think we should get intimate (who yeah)
I don't wanna be a hypocrite (a hypocrite)
I'm a proud, determined lady (I'm proud lady)
But I'll never be your baby (noâ€¦ yeah, yeah)

(no yeah, yeahâ€¦)

I don't think we should get intimate
You won't get my love unlimited
You would have been my baby
But you couldn't drive me crazy

And I don't think we should get intimate
I don't wanna be a hypocrite
I'm praâ€¦ hmmâ€¦
