I'm gonna trap a man
'Cause I could never stand
How he hurt my friend

I'm gonna have revenge
Make him feel the same
Make him feel the pain

He will come to me, talk to me, flirt with me
He'll think he's got me in the sack
Play with me, lay it on me, dance with me
Another play thing in the bag

Right then when you think
You're gonna get some
You're gonna get none
This is my revenge

I'm gonna make him jealous
Show him tonight what hell is
I'm gonna freak him out
I'm gonna take him out
I'm gonna, I'm gonna make him jealous

I, I wanna know
I wanna know what hurts you
I wanna know what alerts you

Your ego is my key
So I can break it off
So I can break it off

He will come to me, talk to me, flirt with me
He'll think he's got me in the sack
Play with me, lay it on me, dance with me
Another play thing in the bag

I'm gonna make him jealous
Show him tonight what hell is
I'm gonna freak him out
I'm gonna take him out
I'm gonna, I'm gonna make him jealous

I wanna know what hurts you
What alerts you

Just a fling ain't my thing
It don't matter what you bring
I'm gonna make him look the fool
I'm gonna make him sweat and drool

All the passion he has quenched
All the hurt he caused my friends
I'm gonna make him pay tonight
Show my sisters he ain't right

Hey oh, hey oh
Make him pay tonight

I'm gonna make him jealous
Show him tonight what hell is
I'm gonna freak him out
I'm gonna take him out

I'm gonna make him jealous
Show him tonight what hell is
I'm gonna freak him out
I'm gonna make him jealous

I wanna know what hurts you
Alerts you
Break it off, break it off
Oohâ€¦
