Where's your head, where's your head  
Where's your head, where's your head  
Is it off, is it on, have you lost it?  
Where's your head, where' your head  
Where's your head is buried in the sand  
Up your arse, are you brain dead

Uh oh, it's us again, yo  
The same five kids from the H-D-K-N  
And were back on this game  
Like a kid with a brand new Playstation

Get to know that were coming for you  
Because I've got more bars than JD Weatherspoons.  
More lines than Camden could do  
More words than Google could search through

Stop, stop right now  
I said, no, you don't, no, you don't

And I thought I told you  
(Thought I told you)  
The game is over  
(Game is over)

Showed you  
(Showed you)  
The game is over  
(Game is over)

Where's your head, where's your head  
Where's your head, where's your head  
Is it off, is it on, have you lost it?  
Where's your head, where' your head  
Where's your head is buried in the sand  
Up your arse, are you brain dead

You can say what you like, we don't care now  
You can type what you type, we don't care at all  
Still in your in your fucking eyeballs  
(So where's your head at)  
Still in your fucking eardrums

(so where's your head at)

Stop, stop right now  
I said, no, you don't, no, you don't

And I thought I told you  
(Thought I told you)  
The game is over  
(Game is over)

Showed you  
(Showed you)  
The game is over  
(Game is over)

So where you at and where's your head?  
Your precious indie rocks dead  
And I'll fuck up your life like crystal meth  
'Cause now it's on and I'm in the zone  
You fuck up my ears like a shit ringtone

Stop, stop right now  
I said, no, you don't, no, you don't

Uh oh, it's us again, yo  
Uh oh, it's us again, yo  
Uh oh, it's us again, yo  
Same five kids but a brand new show

Uh oh, it's us again, yo  
Uh oh, it's us again, yo  
Uh oh, it's us again, yo  
Same five kids but a brand new show

Uh oh, it's us again, yo  
Uh oh, it's us again, yo  
Uh oh, it's us again, yo  
Same five kids but a brand new show

Uh oh it's us again, yo  
Uh oh it's us again, yo  
Uh oh it's us again, yo  
Same five kids but a brand new show

Your time is up my friend  
'Cause all bad things must come to end  
Your time has been  
So fuck you and your precious scene
