

Hadouken! "Parasite"

Visit "[Parasite](#)" on MotoLyrics.com

No longer one, not symbiotic
It's all I have
I gave you everything
Take what you want, then neutralize it
It's all I have
I gave you everything
Take all you want from me
Take all you need from me
I took a step back, now I realise
I'm being consumed by a parasite!

Half for me, is half for you
Half of me, is half of you
This parasite, it's still alive!
Take all you want from me
Take all you need from me
It's before my eyes, then I realise
I'm being consumed by a parasite!

But I won't fall this time
And that's the thing
You won't get everything
You sapped my life
But I won't fall this time
And this parasite, it's still alive!

Oh!
A parasite!
Take all you want from me
Take all you need from me
This parasite, it's still alive!

But I won't fall this time
And that's the thing
You won't get everything
You sapped my life
But I won't fall this time
This parasite, it's still alive!

Take all you want from me
Take all you need from me

I took a step back, now I realise
I'm being consumed by a parasite!
Sup!

Oh!
A parasite!
It's before my eyes, then I realize
I'm being consumed by a parasite!

But I won't fall this time
And that's the thing
You won't get everything
You sapped my life
But I won't fall this time
This parasite, it's still alive!

Oh!
A parasite!

Take all you want from me
Take all you need from me
This parasite, it's still alive!
