... If I can't have my food
I'll have her arteries
Devouring in love
Give me your blood

My digestive system poisoned by sugar
Glucose is the mania, internal sweet collapse
Like a sadistic torrent diabetes attack
Eviscerating my victims (worshiping the sugar)

Inverted cadavers in my operating room
Contemplating my artwork in the psychiatric room
Hooks from the sky I am the cancer
Butchered by sugar I am the necromancer

I'll dilacerate all my cadavers
With a dirty knife

Rituals of sweetness
Madness of an inhuman mind

My digestive system
Bloody sugar's the killer of my life

Diabetes nocturnal fetish of the sugar
I worship the sweet, worship your death
I worship the knife, worship your life
